

Author:

Margaret M. Bubolz is Professor Emeritus, College of Human Ecology, Michigan State University.

Editor:

Linda Nelson is Professor Emeritus, College of Human Ecology, Michigan State University.

Associate Editors:

Burness Wenberg is Associate Professor Emeritus, College of Human Ecology, Michigan State University.

Nancy Axinn, formerly on the faculty at Michigan State University, has served as an international consultant.

Dorothy I. Mitstifer is Executive Director of Kappa Omicron Nu, a national honor society.

This book will be of interest to those concerned with women's roles, changes in contemporary families, preservation of the environment, and the quality of life.

The story of Beatrice Paolucci also provides insight into the history of family and consumer sciences/human ecology and describes the impact one leader can make on the profession.
